Enlisting Recovering Warriors in a Therapeutic Mission

WE CAN MAKE A DIFFERENCE

WHAT DOES WCC DO?

Warrior Canine Connection (WCC) is a pioneering organization that utilizes its Mission Based Trauma Recovery (MBTR) model to support recovering combat Veterans and their families. WCC provides Veterans a regained sense of purpose through the opportunity to engage in a critical military support mission while simultaneously receiving treatment for their own symptoms of Post-Traumatic Stress and Traumatic Brain Injuries (TBI). Based on the time-honored tradition of Warriors helping Warriors, their mission is to train highly-skilled service dogs that provide years of mobility and social support to Veterans with disabilities.
